

Dear FCC Commissioners:

I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM radio's ability to provide the kind of programming that I demand and deserve. I benefit from listening to XM Satellite Radio and its traffic and weather channels. Note that XM's traffic and weather channels are not in-fact "local content", but are all broadcast nationally. Satellite radio provides variety and quality that are not available elsewhere. I willingly pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. In fact, the over-the-air broadcasters should be required to make more beneficial use of the public airwaves, spectrum which I as a taxpayer own.

Sincerely,  
James Cebula
